KERAMAG
Geberit Group

KERAMAG'S CORPORATE PHILOSOPHY IS AS SIMPLE AS IT IS BASIC: 'WE CREATE LASTING VALUES' STANDS FOR BATHROOM PRODUCTS THAT APPEAL BOTH NOW AND IN THE FUTURE. IT ALSO STANDS FOR RESPONSIBLE INTERACTION WITH PEOPLE AND OUR ENVIRONMENT. LAST, BUT NOT LEAST, IT STANDS FOR A FUTURE THAT WE ALL WANT TO LIVE IN.

RESPONS

IBILITY

THE FEELING OF BEING RESPONSIBLE FOR SOMETHING IS WHAT ENCOURAGES US TO TAKE A CLOSER LOOK AT THINGS, QUESTION THEM AND WANT TO IMPROVE THEM. AFTER ALL, RESPONSIBILITY GOES BEYOND OUR OWN SENSE OF WELL-BEING. FOR KERAMAG, IT MEANS BEING COMPLETELY COMMITTED, THINKING AHEAD AND FINDING SOLUTIONS THAT WILL GUARANTEE A HIGH QUALITY OF LIFE OVER THE LONG TERM. 'WE CREATE LASTING VALUES' IS THE CORE CONCEPT THAT KERAMAG SUCCESSFULLY REALISES IN ITS RESPONSIBLE INTERACTIONS WITH CUSTOMERS, PRODUCTS, EMPLOYEES AND THE ENVIRONMENT.

THE SECURITY OF
LASTING VALUES.

MOVEMENT AND DESIGN

WELL-BEING

For Keramag, creating lasting values is an incentive, challenge and principle in one. It defines the approach of the brand and is reflected in a level of product quality that you are guaranteed to enjoy for a long time to come.

This is because Keramag products draw on the expertise and wealth of experience of several generations in order to make life more beautiful and pleasant for many years to come. The company's over 110-year history reflects its dedication to quality and continuity. First-rate design, long-lasting precision and faultless technology are quality features that single out Keramag on the market. In every era, it is the company's innovativeness and high standards that have dominated its bathrooms and strengthened trust in the brand.

For Keramag, creating and preserving values also involves focusing on one crucial element in particular: the environment. Whether it is efficient water saving technologies or ever more advanced production techniques – Keramag thinks and acts in a sustainable way. To protect our resources, for greater environmental sustainability and for a quality of life that we can enjoy with a clear conscience insofar as subsequent generations are concerned.

Keramag focuses on continuously developing these characteristics of its identity, which helps it to create fantastically beautiful, long-lasting bathroom and guest WC series, bathroom furniture ranges and individual products that will inspire both now and in the future. All this makes the company one of the leading German manufacturers of high-quality sanitary ceramics.

After all, for Keramag, taking on responsibility means actively shaping our quality of life and being committed to a future with values that you can rely on.

QUALITY AND SUSTAINABILITY CREATE A FUTURE.

Only uncompromising quality standards lead to perfection. Only consistently environmentally aware actions will protect our habitats. The opportunities of tomorrow are rooted in the way we act today. For Keramag, this means doing business with intelligence and farsightedness. Driving forward innovations that show responsibility towards future generations and actively preserve the environment at the same time.

A strong awareness of quality.

Keramag was the first bathroom ceramics manufacturer in Europe to be certified according to the international quality norm DIN EN ISO 9001 for excellent quality control.

This standard of quality is evident in the perfect interplay of functionality and looks in product design and makes Keramag products incredibly robust over the long term, as well as hygienic and easy to clean.

Thanks to careful functional tests, load tests, digital measurements, TÜV-tested safety and strict in-house controls, Keramag products are also reliable, comfortable and future-proofed.

Environmentally-friendly products. Products by Keramag implement the company's sustainability concept in a consistent manner.

100% recyclable: sanitary ceramics by Keramag (page 88)

Save water, conserve resources:

- Innovative KeraTect® glaze (page 35)
- Rimfree® WCs (page 34)
- 4.5 litre WCs
- Cisterns with integrated dual flush
- Urinals with 0.5-2 litre flush volume
- Sensor-controlled 4Bambini infra-red taps

Reduce cleaning materials, protect water courses

- innovative KeraTect® glaze
- Rimfree® WCs

Optimised production processes. As early as 1994, Keramag was the first company in the sanitary ceramic industry to be awarded the environmental-management certificate for particularly energy-saving and environmentally friendly production processes. An early commitment to sustainability that has been followed by much more:

- improved treatment and sieving techniques
- freshwater recycling
- more efficient waste gas usage
- advanced flue gas cleaning plants
- raw materials supplied by ship instead of several lorries
- raw materials procured regionally where possible

This has enabled Keramag to reduce water and energy consumption, improve working conditions, ensure that emissions from our production ovens are well below the required limits and reduce transportation that has an impact on the environment. Considerably and on a permanent basis.

Keramag is a member of the

DGNB®

Deutsche Gesellschaft für Nachhaltiges Bauen e.V.
German Sustainable Building Council

Blue Responsibility
Nachhaltige Sanitärlösungen

Consistent commitment. Keramag is actively involved in developing advanced environmental concepts:

- Keramag is a member of the DGNB, the German Association for Sustainable Construction.
- Keramag is a partner in the Blue Responsibility initiative.
- Keramag recycles transport packaging – in 2011, this saved 858.78 tonnes of greenhouse gases, the equivalent of the average yearly CO₂ emissions produced by 414 cars.
- For its printed materials, Keramag places great importance on working with FSC-certified partners who are committed to sustainable forestry and responsible interaction with wood.

We can influence today how well we live tomorrow. This is why Keramag invests in concepts that will secure the high Keramag brand quality over the long term and drive forwards its policy of sustainability.

Preciosa. Commitment to clear lines.

PRECIOSA

Perfect for yesterday, today and tomorrow. A real design classic.
Preciosa – for clearly designed architecture that meets the highest standards.

TRENDS

OVER TIME, OUR VALUES AND WAYS OF LOOKING AT THINGS CHANGE, AND NEW TRENDS COME INTO BEING. SOME OF THESE ARE SHORT-LIVED, OTHERS BECOME A PART OF OUR LIVES AND WE END UP TAKING THEM FOR GRANTED. IN MODERN PRODUCT DEVELOPMENT, THESE TRENDS ARE PICKED OUT SYSTEMATICALLY AND ANALYSED. THIS MEANS THAT THEY FILTER OUT EXACTLY THOSE COLOURS, STYLES AND ATMOSPHERES THAT WILL BE IN DEMAND ON THE MARKET FOR A LONG TIME TO COME. THIS THEN FORMS A SOUND BASIS FOR BATHROOM DESIGNS THAT WILL BE REGARDED AS DREAM BATHROOMS BOTH NOW AND IN THE FUTURE. 

WHAT DO WE DREAM ABOUT TODAY, WHAT WILL INSPIRE US TOMORROW?

A new bathroom should outlast short-lived trends, precisely meet our ideas of cosiness, fascination and comfort and be complemented by such fantastic ideas that we'll still love it even years later. It's good to know where we're heading when we select colours and materials, opt for a particular product or equip our bathroom according to current standards of comfort.

Naturalness can be expressed in many ways in a bathroom. This increasingly important trend drives us to seek out sustainable products and choose more natural materials.

Recyclable sanitary ceramics and water-saving easy-clean WCs without a rim are incredibly effective ways of implementing the sustainability trend in the bathroom. Plants in the bathroom or a view of greenery underpin the desire for a natural living space.

Wood and natural stone play a major role. Bathroom furniture with natural warm wood surfaces ensures a cosy atmosphere. Current reproductions of wood structures and natural stone looks found in nature are such good imitations that they inspire with their pleasant, original and cosy effect.

“Lights on” stands for modern, electricity-saving LED lights that are being used ever more widely in all areas of the bathroom, from direct and indirect lighting on mirrors to drawer and cupboard illumination and atmospheric/ orientation lights on bathroom furniture.

Exciting colours and materials. Grey is an on-trend colour and anything but boring. This is because grey offers excellent possibilities of presenting a space in a stylish way. Just as trendy are metallic accents that can be placed in the bathroom as part of the walls or in bathroom furniture.

The future will be more colourful. Whether pink or green for walls, furniture or accessories – the bathroom of tomorrow will be all about contrasting colours. New colours lend bathroom design a certain vibrancy.

it! The gentle shape of modern life.

The gentle geometric shapes of the bathroom range it! bring a clear sense of modernity to any bathroom. Particularly striking: the continuous inner basin of the 1300 mm wash basin. Spacious drawers with a self-closing mechanism and tall cabinets with adjustable glass shelves and large mirror inside combine attractive storage solutions with a high degree of comfort.

The wall-hung WC is available as Rimfree® version with water-saving 4.5 litre flush and a particularly easy to clean, rim-free bowl.

Particularly suited to combining with bathtubs and shower trays from the iCon range.

The bathroom furniture is with high gloss finish on the outside and matt lacquered finish on the inside. Also attractive: the wall-hung WC with the innovative sanitary module Universal by Keramag Design. Quickly and easily installed it is ideal for renovations.

IT!

it! also offers a asymmetric wash basin shape with a useful large shelf space right or left. Highly sophisticated: the gently rounded it! design of the floor-standing WC combination as well as the comfortable guest WC solution.

it! – gentle geometric shapes for modern life.

IT!

INNOVA

TION

THE FUTURE BEGINS IN THE MIND – WITH VISIONS OF AN EASIER AND MORE PLEASANT LIFE. WE DREAM UP VISIONS THAT DRIVE US TO QUESTION EXISTING CONCEPTS, FIND NEW WAYS OF SOLVING PROBLEMS AND IMPROVE ELEMENTS THAT ALREADY WORK WELL. INNOVATION IS ONE OF KERAMAG'S STRENGTHS AND IS EVIDENT IN ITS PRODUCT DEVELOPMENTS, WHICH ENJOY A LEADING POSITION ON THE MARKET TIME AND AGAIN. THEY ARE TRAILBLAZING IN TERMS OF DESIGN, COMFORT, TECHNOLOGY AND ENVIRONMENTAL ASPECTS. DEVELOPED FOR A FUTURE THAT WILL GIVE OUR LIVES A NEW LEVEL OF QUALITY. 

RIMFREE® WCS – THIS IS WHAT EASY-TO-CLEAN HYGIENE LOOKS LIKE TODAY.

Innovations such as the Rimfree® WCs by Keramag are much easier to clean. This is because without a rim, there are no longer any hidden elements where deposits can build up and collect.

Easier to keep clean.

Dirt is easy to see and can be removed in a flash.

Perfect hygiene.

No hidden hollow spots and a patented flush distributor. This combination ensures a safer water flow, hygienic and faultless flush results and a new standard of hygiene in the bathroom.

Award-winning innovation, quality, design and functionality. The rimless iCon wall-hung WC was awarded the international innovation prize PLUS X AWARD in 2012.

The right Rimfree® WC for every bathroom. Almost all bathroom series by Keramag, as well as the series Xeno² and myDay by Keramag Design, offer easy-clean Rimfree® WCs. These are available in both round and square designs and as wall-hung and floor-standing WCs, as well as with a wheelchair-accessible projection of 700mm.

You can find out more in the separate Rimfree® brochure.

KERATECT®, THE FIRST SPECIAL GLAZE WITH A 30-YEAR-GUARANTEE.

Only those who are completely sure about the quality of their product can give a guarantee that goes far beyond standard guarantees. Uniquely, Keramag guarantees the reliability and smoothness of the KeraTect® special glaze for 30 years*. This is a guarantee of ease of cleaning, value retention and perfect hygiene that pays for itself in the long term.

**With KeraTect® you'll never
have to clean as hard again!**

- Less cleaning
- No hard-to-remove build ups
- Saves time
- Reduced use of cleaning materials
- Protects the environment
- First-rate hygiene
- Lasts for the life of the ceramic

**KeraTect® – permanently smooth,
shiny and easy to clean.**

- Fired at 1,250° C.
- This enables the special glaze to form a lasting bond with the ceramic.
- The surface is practically non-porous and is much smoother than other ceramic surfaces.
- Build-up of dirt and bacteria is considerably reduced.
- Even with high-pressure cleaners, harsh cleaning materials and micro-fibre cloths, the surface structure of the KeraTect® special glaze will not be damaged.

KERATECT® IS A KERAMAG INNOVATION THAT PROVIDES
AN EXCELLENT LONG-LASTING FINISH FOR YOUR BATHROOM
CERAMICS: RADIANTLY BEAUTIFUL, EASY-TO-CLEAN AND
SMOOTH FOR THE LIFETIME OF YOUR CERAMIC.

*Keramag gives you a 30-year-guarantee on the KeraTect® glaze and therefore the long-lasting smoothness of the ceramic surface. The smooth surface offers optimal cleanliness and hygiene during everyday use and with regular cleaning. The shiny glaze of your Keramag quality product will remain in mint condition. It is not necessary to impregnate the product with any chemicals or use special cleaners. This guarantee is limited to technical manufacturing faults. Other faults, particularly those caused by misuse of the product or external conditions, are not covered by this guarantee.

ADDITIONAL INNOVATIONS THAT MAKE LIFE EASIER.

Aesthetically smooth ceramic surfaces. Thanks to Clou, the patented waste and overflow system by Keramag, water can accumulate in basins that do not have overflow holes, while at the same time preventing the basin from overflowing. The design series Xeno², citterio and myDay are all equipped with Clou.

Wall-mounting systems such as PlugFix make WC installation easier and cannot be seen from the outside. The WCs are firmly fixed in place, while the surfaces are beautifully enclosed.

This innovative technology by Keramag makes wash-basins and WCs look visually appealing and ensures that they are easier to clean.

A couple of crucial centimetres more or less.

Whether reduced product dimensions for small spaces such as with the Renova Nr. 1 Comprimo or greater ground clearance for easy mopping under a WC – Keramag products are well planned to suit your needs.

Useful support for young and old. Washbasins that are easy to use when sitting down, shelves in bathroom furniture doors that are easy to reach, a sitting area on the edge of the bathtub for parents and helpers and much more is available with Renova Nr. 1 Comfort and Comfort Plus Family, pages 130 and 144.

Save water with every flush. 4.5 litre WCs and urinals with just 0.5-2 litre water consumption as a smart WC extra pay for themselves.

Going to the toilet alone is child's play. Fun, colourful and easy, safe and uniquely child-friendly: the Baby WC as the perfect potty replacement and the lion's paws WC and seat with animal design. This is just how much fun hygienic independence can be. More information is available on page 126.

Universal, combined with myDay wall-hung WC

For your personally perfect pre-wall solution.

Whether a modernisation or new installation, on or behind the wall – the pre-wall concepts by Keramag offer the ideal solution for every project and in doing so can meet the most varied of design standards and construction prerequisites.

- Universal, the aesthetic combination of elegant design element and complete WC flush technology.
- Keramag System with comprehensive pre-wall programme for easy sanitary ceramic installation and a large selection of modern WC flush plate designs.

Perfect for individual bathroom planning.

Universal, combined with citterio floor-standing WC

Universal is mounted completely on the wall. The high-quality glass front and sophisticated aluminium frame are available in four coordinated colour combinations. The flush buttons, which have the same modern rounded design and are made from high-quality safety glass as the front, are completely integrated.

Universal can be installed quickly and accurately and can be perfectly combined with all Keramag Design and Keramag wall-hung and floor-standing WCS mounted flush with the wall.

Universal, combined with it! wall-hung WC

Universal, combined with iCon wall-hung WC

Upmarket, high-quality, sophisticated: this sanitary module brings high-quality aesthetics into the bathroom and makes individual bathroom modernisation easier.

You can find out more about Universal in the journal section "Keramag Design".

PRE-WALL SYSTEMS/
FLUSH PLATES

WC flush plate Prado combined with it! wall-hung WC

Keramag System comprises pre-wall elements for washbasins, WCs, bidets, urinals and handles, including Fresh System for a hygienically fresh WC flush, which is integrated as standard into WC pre-wall elements for drywall construction.

The large selection of WC flush plates also makes it easy to find the perfect design for every furnishing style – one that either matches the bathroom series or in the exact same wood structure at the Keramag Design bathroom furniture. It's up to you.

Keramag System. Pre-wall elements, flush plates, ceramics and freshness – everything from a single source.

Detailed information about the various Keramag System pre-wall elements for new installations, renovations and modernisations can be found in the separate brochure "Keramag System".

iCon. Individual combinations of product and space.

ICON

The flexibly combinable storage room concept of the iCon bathroom series offers a range of comfortable ways to create organisation in the bathroom.

ICON

Create individual style that has an architecturally modern look with three high gloss and two matt surfaces, as well as the authentic naturalness of a tangible wood structure surface.

ICON

Elegant and unusual: decorative trays that fit perfectly into the ceramic cavity on the asymmetric washbasins. Pleasantly comfortable: thanks to the gentle soft-closing mechanism, drawers in the iCon furniture range shut as though by magic.

ICON

iCon is innovative and unusual – with thirteen up to 1200 mm wide washbasin models and four countertop washbasins. With one floor-standing WC and one wall-hung WC, that are also available in an easy-clean Rimfree® version. And with furniture from floor-standing side cabinet to shelves that can be freely positioned.

ICON

Ideal for modern room planning with different levels. Also good for couples.

ICON

iCon. The new way of designing a room.

ORD

ER

WE LIKE LIVING SPACES THAT ARE DESIGNED TO PROVIDE COMFORT, AND THIS IS WHAT DRIVES US TO TRY TO FIND A SPACE THAT SUITS EVERYONE. THE BETTER WE CAN DO THIS, THE BETTER WE WILL FEEL. DOING SO MEANS THAT YOU HAVE A GRIP ON THINGS AND LIFE IN GENERAL. ORDER IS PART OF OUR LIVES. MODERN ORGANISATIONAL SYSTEMS FOR THE BATHROOM OFFER MORE THAN JUST STORAGE. THEY CAN ALSO BE PERFECTLY MATCHED TO OUR WISHES IN TERMS OF DESIGN AND COMFORT, BRINGING A HOMELY ATMOSPHERE INTO EVERY ROOM AND SIMPLIFYING OUR EVERYDAY LIVES IN A SURPRISING WAY THANKS TO LOTS OF CLEVER IDEAS.

HOW DO YOU MAKE ORGANISATION FOR A BATHROOM COSY, COMFORTABLE AND OF HIGH QUALITY?

There are a number of features that can be integrated into bathroom furniture to make your life easier. Thanks to good design, exceptionally comfortable ideas and Keramag's own commitment to long-lasting quality, Keramag ensures that you will also enjoy these features for a long time to come.

Well-being – a question of design and comfort. The perfect vanity unit for every wash basin, a clever and comfortable idea for every storage requirement. The ceramic and bathroom furniture programme by Keramag and Keramag Design, which are perfectly coordinated in terms of design and comfort, bring harmony and cosiness to your bathroom. Along with lots of ideas to enhance your well-being.

iCon, straight, architectural, clear – a design language of its own, from the wash basin to the illuminated mirror element.

Lockable inner drawer

Roll stool with storage space

Doors and drawers in the Keramag bathroom furniture range are equipped with soft-closing mechanism and close as though by themselves or can be opened and shut easily thanks to the Tip-On mechanism. Some furniture items also contain a few practical hidden extras.

Folding cosmetic module

Open and sophisticated

Keramag bathroom furniture combines high aesthetic standards with a special level of comfort. When closed, the illuminated cosmetic module in the Silk series becomes a perfect extension to the wash basin counter top. Citterio exudes sophistication with its combination of open shelves, closed storage space, mirrored surfaces and lighting.

Mirror and shelf in one

Integrated socket with USB connection

Atmospheric/orientation light on wash basin

The illuminated mirror elements and mirror cabinets offer different types of lighting, but always with anti-glare direct and indirect light. Special features include sockets with USB connection and magnifying mirror in the mirror cabinet. Exceptionally attractive is the combination of mirror and shelf for the guest WC and a lighting strip between the wash basin and vanity unit that is activated by an infra-red movement sensor.

An organisational system, for items both large and small.

It's not difficult for you to store everything you need thanks to the versatile combination possibilities offered by Keramag bathroom furniture. Keramag makes it particularly easy for you to store things so that everything has its place, is quickly to hand and always looks organised.

Spacious pull-out drawers, inner drawers

Practical door shelves plus Keramag LED battery module bathroom accessory and magnetic holder for tweezers etc.

Spacious mirror cabinet with many extras

Original storage pocket, variable shelves, with Keramag LED battery module bathroom accessory

Optional bathroom accessories – expand as required.

Keramag supplies bathroom accessories that you can use to equip your bathroom with precisely the level of comfort you need. Separate inserts create an easier overview in drawers. You can also get hand towel holders that can be directly mounted on vanity units, look forward to illuminated drawers and tall cabinets or store small things such as tweezers and nail scissors safely on a magnetic holder. See also page 66.

An overview of Keramag bathroom accessories:

- Inserts for drawers available in two sizes
- Hand towel holder in round and rectangular shape
- Matching LED lighting strips for all vanity units
- Rechargeable LED battery module for tall cabinets
- Magnetic holder

Beautiful things for small rooms with limited space. For guest WCs and bathrooms with small or angled floorplans, Keramag has solved the storage issue perfectly.

Spacious corner vanity unit

Wall cabinet with mirror inside

Storage space incl. hand towel holder for guest WC

Stay independent, live together in a relaxed way. Whether you want to plan in advance for old age, need useful and comfortable solutions for the bathroom because of limited mobility or have several generations living under one roof – Keramag bathroom furniture in the Renova Nr. 1 Comfort series offers well thought out solutions for independence and to help you enjoy being together.

Reach everything when sitting down

Contrast trims for easy orientation

Stackable side cabinets

A variety of surfaces to meet individual requirements. On-trend colours, attractive décors, wood structures and real wood veneers. High gloss, matt, painted or natural. Bathroom furniture by Keramag provides a huge variety to help you realise your personal ideas of cosiness and atmosphere in your bathroom.

You can give your bathroom the special radiance of authentic naturalness by using bathroom furniture with a natural-looking wood structure and sophisticated real wood veneer surfaces. Available with the bathroom series iCon and Renova Nr. 1 Plan as well as the Keramag Design series Xeno², citterio and Silk.

iCon

wood structure oak natural

The colour palette of attractive high gloss surfaces offered by Keramag ranges from white and alpine, light grey, platinum and quartz grey to taupe, ruby, burgundy and Wenge décor.

Renova Nr. 1 Comprimo

Light grey high gloss

Matt surfaces such as alpine, lava and greige underpin the timeless aesthetic of modern bathrooms. Particularly sophisticated is the interplay between matt and shiny finishes on the motif-based front of the 4U series – perfect in combination with the purely matt fronts.

4U

White matt, white glossy motif

Material and processing – a statement of quality. Whether high humidity or water splashes, and from high-quality materials to doors and drawers that close perfectly. Bathroom furniture by Keramag is quality furniture that is manufactured in a targeted and visibly precise way for use in humid rooms.

Preciosa II, white paint high gloss

citterio, wood structure oak tranché natural beige with glass front taupe in matching metal frame

Keramag uses exclusively humidity-resistant materials. Painted surfaces also strengthen the resistance of the furniture. The careful processing is evident in the detail, such as the precision mitering and high-quality material combinations.

On the safe side with brand quality from Keramag

- Keramag bathroom furniture comprises high-quality, guaranteed waterproof materials that are water-vapour impermeable.
- Great importance is placed on careful, precise processing.
- These high standards guarantee that comfortable extras such as the self-closing drawers will still function with the same gentle reliability as they did on the day you got them.
- Brand quality by Keramag ensures that you can enjoy your bathroom furniture for a long time to come.

Bathroom Accessories. Sophisticated additions.

The optional Keramag bathroom accessories make life easier and bathroom furniture as comfortable as you want it to be. Used in conjunction the Keramag bathroom series, these items are high-quality, practical and can be combined to suit individual needs.

Hand towel holder. Slightly rounded or highly geometric shape. These high-quality chrome hand towel holders can be mounted on bathroom furniture and walls without the need to drill holes.

Organisation systems. Stable inserts for drawers and pull-out drawers to help you to organise the many small things you need every day. In two sizes.

LED light strips. Energy-saving LED light strips for excellently lit drawers and pull-out drawers. Available in 9 sizes to suit all washbasin vanity units and easy to mount.

Rechargeable LED battery module. Perfect for tall cabinets and the whole furniture range, this LED lighting modules ensure good interior lighting even without mains connection. Simply remove from the mounting clip and recharge using the supplied Mini USB cable.

Magnetic holder. Keeps scissors, tweezers etc. to hand in every cabinet. The self-adhesive magnetic holder is 100 x 5 x 20 mm large, made from anodised aluminium and is easy to mount on any surface.

You can find more details in the product overview on page 191.

BAD-ACCESSOIRES

4U. Diversity written large.

4U

4U makes individual planning easy. With modern rounded wash basins and furniture that can be combined in various ways and is available in various widths, heights and fronts.

And with lots of good storage space ideas, such as the vanity units with interior pull-out drawer and lockable drawer in the high side cabinet.

Want even more good ideas? Family washplaces can be combined with side cabinets and ceramic shelves or divided using a tall cabinet with open shelves and mirror door.

Ideally combined with: a customised WC solution. Wall-hung, including in a rimfree version, with higher floor clearance for easy cleaning or as floor-standing WC with integrated dual flush button to save water. 4U offers a range of possibilities.

MOVE

MENT

WHAT WOULD LIFE BE LIKE WITHOUT MOVEMENT? IT DRIVES US ONWARDS, BLURS BORDERS AND OPENS UP NEW WAYS OF LOOKING AT THINGS. MOVEMENT BRINGS CHANGE. IN PRODUCT DESIGN, IT LEADS TO NEW DEVELOPMENTS THAT REFLECT THIS CHANGE. FOR KERAMAG, MAKING A NEW PRODUCT DESIGN A GOOD ONE MEANS ACHIEVING A SUCCESSFUL COMBINATION OF AESTHETICS AND FUNCTIONALITY. IT IS PERFECTLY PLANNED FOR GREATER QUALITY OF LIFE, TIMELESS APPEAL AND MAKES LIFE JUST THAT BIT MORE BEAUTIFUL OVER THE LONG TERM.

GOOD PRODUCT DESIGN MAKES THE EVERYDAY SPECIAL.

Good product design not only looks contemporary, but is also based on people's needs and requirements and offers an added value in that it is perceived as being pleasant, practical and comfortable. At Keramag, this combination of form and function is always highly innovative and timelessly attractive, and often developed in cooperation with successful designers. For products that will still appeal after many years.

Design developments by Keramag are innovative and inspire over the long term. This is because Keramag consistently combines quality and perfection with well-founded results from trend research and successful designs by innovative designers.

Preciosa.
Developed by Keramag in 1969 and still an in-demand design classic for appealing bathrooms with a puristic feel.

iCon Rimfree®. No rim means that it is easier to clean and more hygienic. Award-winning innovation, high quality, design and functionality.

● Design Zentrum
Nordrhein Westfalen
Design-Innovationen
Auszeichnung für Hohe Designqualität

Kind wall-hung WC. Especially developed for children. Award-winning high design quality.

Greater quality of life thanks to functional design.

Beautiful design is well thought out and functional at Keramag.

Covered mounting systems and a couple of precious centimetres more ground clearance improve aesthetics and make bathroom cleaning effortless.

The particularly flat wash basin design in the Renova Nr. 1 Comfort series offers lots of leg room when sitting and is wheelchair-accessible.

Buttons integrated flush with the front, both made from high-quality glass, emphasise the elegant look of the Universal sanitary module.

An exceptional, striking shape with lots of storage space – Xeno².

Reduced product dimensions provide small bathrooms with more space to move around in without saving on comfort.

A deeper storage space and easy-to-operate, integrated handles become one in the Renova Nr. 1 Plan. With rounded edges that precisely match the wash basin shape.

Product design by Keramag is innovative, honest, long-lasting and has a timeless aesthetic. Developed for people who want to see their personality reflected in the things that surround them.

Smyle. Contemporary. Comfortable. Light.

SMYLE

Design features such as the streamlined washbasin edge, the recess between the washbasin and vanity unit and the characteristic slightly rounded edges are what give the new bathroom series Smyle a contemporary, friendly lightness.

Smyle offers spacious storage spaces on the washbasins and roomy vanity units with lots of space for daily toiletries. The wall-hung WC is available in a particularly easy-to-clean Rimfree® version, while the WC seat is also available with an optional soft-closing mechanism.

SMYLE

LEAKING

All bathroom furniture is resistant to humidity, available with a choice of four attractive surfaces and has been well planned in terms of functionality.

SMYLE

The Supero bathtubs by Keramag perfectly match the clear and friendly atmosphere of a Smyle bathroom. The optional bathroom accessories, such as the rechargeable LED battery module for lighting the interior of the tall cabinet on page 67, provide additional comfort.

Light, comfortable and with a modern beauty. Smyle in guest bathrooms.

SMYLE

DURA

B I L I T Y

ONE THING IS CERTAIN: ALL OF US WANT TO BE ABLE TO ENJOY A NEW BATHROOM FOR A LONG TIME TO COME. THE SHINY GLEAMING SURFACE OF THE WASHBASIN, THE FANTASTIC COMFORT OF THE BATHTUB – WE PLACE OUR TRUST IN THE DURABILITY OF THIS ENJOYMENT, AS WELL AS THE COMMITMENT OF THE BRAND AND QUALITY OF THE PRODUCTS. KERAMAG LAYS THE FOUNDATION STONE FOR THIS BY CAREFULLY SELECTING EXCELLENT MATERIALS FOR ITS PRODUCTS.

BRAND QUALITY BEGINS WITH THE BASIC MATERIALS.

Main components of sanitary ceramic:

Quartz

Feldspar

Clay

Kaolin

Durable and keeps its good looks. Sanitary ceramic by Keramag is made exclusively from biologically harmless ceramic material and fired at high temperatures. The glaze forms a lasting bond with the ceramic shards, creating shiny and incredibly durable washbasins, WCs and bidets.

- Crack and scratch-resistant
- Resistant to temperature change and chemicals
- Keeps its good looks
- Easy to clean
- Recyclable thanks to lead-free glaze

Extremely flexible and robust Varicor®. This mineral material, made from high-quality natural minerals and resins, is multitiered in terms of its flexibility and durability. The silky matt surface also feels pleasantly warm.

- Fully dyed, non-porous material
- Can be sawn, milled, drilled, ground, contoured and grooved
- Accurate installation to the millimetre
- Almost seamless connections
- Extremely easy to clean
- Impact-resistant
- High level of resistance to chemicals and temperature
- Food-safe
- Stain-resistant
- Extremely robust – even cigarette ash has no effect on the material once the tar residue has been removed

High-quality acrylic. For the various bathtub and shower tray shapes in its ranges, Keramag uses a particularly high-quality acrylic – cross-linked, cast and strengthened with glass fibres using polyester.

- Skin-friendly, non-slip surface
- Homogenous and non-porous, usually with a shiny surface

- Extremely high impact and wear resistance thanks to a thickness of up to 5mm
- Fade-resistant and resistant to chemicals
- Low thermal conductivity
- Easy to clean – with non-abrasive, standard household cleaners
- Simple to repair – small scratches can be repaired using damp sandpaper, standard car polish and a soft cloth

Renova Nr. 1.
The creative solution across the range.

RENOVA NR. 1

The comprehensive and versatile Renova Nr. 1 ceramic, bathtub and furniture programme provides the basis for fantastically individual bathroom designs. Modern, comfortable, easier to clean – and also available with Rimfree® wall-hung WC without rim for quick, effortless cleaning. Renova Nr. 1 makes modernising your bathroom easy.

You can find more detailed information in the separate Renova Nr. 1 brochure.

RENOVA NR. 1

Renova Nr. 1 Plan. With corners and edges.

RENOVA NR. 1 PLAN

With two bathroom furniture programmes, Renova Nr. 1 Plan makes bathroom modernisation highly appealing and versatile. The handleless furniture programme embodies the concept of clear lines: with integrated handles, and deeper shelf spaces whose rounded edges fit in perfectly with the washbasin shape and a streamlined, light look with vanity units clearly set back from the washbasin.

Strong on detail: the Rimfree wall-hung WC.

Front and body in the same colour: white high gloss, lava matt, or with tangible brushed wooden structure Ulme and dark natural oak. A high-quality, flexibly combined furniture range, which meets additional storage needs. Also matches: the universal design of the Option mirror cabinets.

RENOVA NR. 1 PLAN

The Renova Nr. 1 furniture range solves storage problems in an appealing and comfortable way with tall and side cabinets and vanity units that come with a choice of three trendy high gloss fronts.

Organisation has a system.

You can find more detailed information on Renova Nr. 1 Plan and both bathroom furniture ranges in the separate Renova Nr. 1 brochure.

RENOVA NR. 1 PLAN

Renova Nr. 1 Comprimo.
Comfort even in confined spaces.

Space-saving features and a wide range of products – for lots of freedom of movement, storage space and comfort even in the smallest bathrooms and guest WCs.

RENOVA NR. 1 COMPRIMO

Ideal for big and small corners alike.

Or perfect with additional shelf on the asymmetric washbasin and integrated hand towel holder in vanity unit. Renova Nr. 1 Comprimo provides lots of room to play with in terms of design.

You can find more detailed information in the separate Renova Nr. 1 brochure.

RENOVA NR. 1 COMPRIMO

WEL

COME

IT GOES WITHOUT SAYING THAT WE WANT TO WELCOME OUR VISITORS, INVITE THEM IN, MAKE THEM FEEL GOOD AND SHOW THEM HOW WE LIVE AND WHAT IS IMPORTANT TO US. RIGHT DOWN TO THE ROOM IN WHICH EACH OF OUR GUESTS WILL SPEND SOME TIME SOONER OR LATER: THE GUEST WC. IT'S A GOOD THING THEN THAT MODERN GUEST WC CONCEPTS AND CLEVER DESIGN TRICKS CAN CREATE AN ENVIOUSLY BEAUTIFUL AND ALL-ROUND COMFORTABLE ROOM DESIGN, REGARDLESS OF SIZE AND FLOOR PLAN. ■■■

TODAY, EVERY GUEST WC IS UNIQUELY BEAUTIFUL.

Space for everything you need to store and also finally the chance to realise your own design preferences in the smallest room of the house. With today's varied designs and ranges for guest WCs, it's easy. And you won't have to make any compromises, there'll be lots of space to move around in and it will be fantastically comfortable into the bargain.

Perfectly coordinated design – ceramics and bathroom furniture ranges for the guest WC.

Integrated hand towel holder.

A practical solution that saves space and doesn't require any holes to be drilled.

Spacious corner solution
for the smallest floorplans. Lots of
space everywhere.

Interesting, modern and practical: the combination of vanity unit and open side cabinet with attractive Plexiglas box. An eye-catcher that takes up little space but still provides lots of storage.

Save water with Hygieneplus. Save water over the long term by installing a urinal with 0.5–2 litre flush, which also provides clear hygiene benefits compared to a WC seat with lid up. Together with a 4.5 l WC from Keramag, these products mean you can be both frugal and environmentally friendly at the same time.

Reduced product dimensions in the WCs, wash basins and hand-rinse basins give us a few more precious centimetres of room to move around in.

Side cabinet with shelf – perfect for more storage space and as a surface for anything that catches the eye or needs to be close to hand.

Find out more in the separate Guest WC Journal by Keramag.

iCon xs. Architecturally clear.

Whether a self-closing drawer, a mirror with shelf or a WC with a shorter projection – iCon xs triumphs with interesting and comfortable ideas for modern guest WCs and guest bathrooms.

ICON XS

The black Plexiglas box in the side element is an eye-catcher and storage box in one.

Colour selection: ideal for giving a room the personal touch with three high gloss colours, to matt colours and wood structure in oak natural with a tangible surface structure.

ICON XS

You can find more information in the current guest WC journal.

ICON XS

The Fidelio corner hand-rinse basin fits into any corner.

Thanks to its streamlined, timeless design, the Option product programme can be universally combined and will suit any bathroom series.

INDEPEN

D E N C E

BEING INDEPENDENT OF OUTSIDE HELP GIVES US SECURITY AND INCREASES OUR SENSE OF SELF WORTH. SUPPORTING AND MAINTAINING THIS INDEPENDENCE MEANS PRESERVING A VALUABLE PART OF OUR OVERALL QUALITY OF LIFE. KERAMAG HAS THEREFORE DEVELOPED TARGETED BATHROOM CONCEPTS THAT PROMOTE INDEPENDENCE IN LITTLE ONES AND HELP THOSE WITH LIMITED MOBILITY TO MAINTAIN THEIR INDEPENDENCE FOR LONGER. THEY ENABLE FORWARD-LOOKING PLANNING FOR MODERN CROSS-GENERATIONAL BATHROOMS THAT MAKE PEOPLE FEEL GOOD, SAFE AND FREE FOR A LONG TIME.

IT'S EASY TO SUPPORT INDEPENDENCE – FOR BOTH BIG AND SMALL!

Some surprisingly simple, ergonomic product developments with strong designs by Keramag take the independence of every age group into account. Not only do they offer safety and support in the bathroom, but also well thought out comfort and the freedom to be independent.

I can wash myself! Keramag makes it child's play. At the right height with a cute design and full of colour. With a tap bench that has been brought forward, perfect in combination with the fun single-hand mixer and the first children's tap with precise sensor activation from the 4Bambini series. And with WCs that cleverly combine fun and comfort – from baby-hood onwards.

The right seat height for everyone – and more.

A seat ring in potty shape. Lion's paws on the toilet that children can rest their legs on so they do not go to sleep. Or hold on safely without trapping their fingers. Easy getting up for those with back problems thanks to raised seat positions for grown-ups. Keramag offers unique child-friendly and cross-generational products.

Become independent! Equipping your bathroom with products for cross-generational bathrooms today means that you will have a greater chance of being able to live independently and autonomously for longer. Keramag combines comfort that will support you in a functionally intelligent way with a beautiful bathroom design. For aesthetically appealing bathrooms that help anyone with limited mobility to live together with their families in a relaxed way.

Sit down comfortably with plenty of legroom, have everything within easy reach and still be able to see yourself in the mirror – perfect for tired legs.

Side cut-outs on wheelchair-accessible wash basins make it easier for users to hold their balance and pull themselves up safely or can be used as practical towel rails.

Helpful: expanded edge that can be used as a seat, handles that make it easy for you to pull yourself up, have a relaxed bath or shower safely thanks to the bench. Beautiful design can be this helpful.

Orientation at night. The indirect wash basin lighting can also be turned on separately – simply use the sensor switch to provide a gentle light at night.

Sitting higher means easier getting up. Wider seating surfaces make it even more comfortable. And with a 700mm projection and extra-stable WC seat, it is easy and safe to **transfer from a wheelchair.** The version without rim is also much easier to clean.

Kind/Baby. Growing into space.

Uniquely child-friendly! With products designed especially for children, Keramag helps even little ones to develop their knowledge of hygiene in an independent way.

Here it's not only fun to sit on the toilet just like the grown-ups do. It is also colourful and a lot easier to hold and support yourself.

KIND/BABY

4Bambini play and wash landscape

**4Bambini/3Bambini/2Bambini.
A playful way to become hygienically independent.**

4Bambini infra-red tap

4Bambini single hand mixer

Suitable for children, smart and colourful: the specially engineered Bambini-products help children to learn how to wash their hands and brush their teeth independently. Ideally combined with the fun factor of water and absolute child's play to use.

Renova Nr. 1 Comfort. Gain personal freedom.

RENOVA NR. 1 COMFORT

Modern design for forward-looking bathrooms. The wash basin, WC and furniture solutions by Renova Nr. 1 Comfort are intelligently planned and highly functional. They are designed to enable people to maintain their independence as long as possible and help them use the bathroom without assistance even if their movement is restricted.

Wheelchair-accessible washbasins available in two versions make it pleasantly easy to wash and care for yourself while sitting down.

With soft inner basin design
550 and 650 mm wide, accessible
by wheelchair and with spacious
shelf surfaces.

With helpful functions

Extremely flat, 500, 600, 650 or 750 mm wide, accessible by wheelchair and user friendly.

- 1** Wheelchair-accessible and plenty of knee space when sitting
- 2** Incorporated ledge area which functions as separator for half-full basin
- 3** Halfdry storage space at the front
- 4** Gentle rounded edges and easy-to-grip
- 5** Flat armrest and support area
- 6** Raised edge for gap-free mirror positioning

The washbasins in the width of 600, 650 and 700 mm fulfil DIN 18024 and are therefore recommended for use in barrier-free bathrooms and sanitary rooms. The 550 mm wide model corresponds to the protection targets specified by this DIN.

RENOVA NR. 1 COMFORT

This WC range combines comfort and safety.

Continuous stainless-steel hinge pin for high level of stability and bevelled ceramic for slip-resistant WC seat.

WC seat with wide seat area for more sitting comfort, complete with bevelled buffers and extra buffer with handle for the lid.

A high degree of stability and sitting comfort, including on the WC with standard 550 mm projection.

480 mm seat height incl. WC seat for easier getting up and sitting down. WC seat also available with softclosing mechanism.

The WCs with 700 mm projection and the floor-standing WC meet DIN 18040 standards for barrier-free bathroom design.

Rimfree®

700 mm projection for easy use with wheelchair – available in two versions and an easy-to-clean Rimfree® version.

RENOVA NR. 1 COMFORT

Makes bathrooms cosier and more comfortable, while also enabling easy and comfortable usage of the bathroom even while seated.

Thanks to the doors with integrated compartments that can be opened up to 110 degrees, toiletries can be easily reached even while sitting. Optional undershelves with cut-out to allow for movement provide additional legroom on the 750 mm wide vanity unit.

The side cabinets can be stacked to create a medium or tall cabinet. Dividing or cover plates provide easily recognisable contrasts in the colour of your choice.

For further information, see the detailed Renova Nr. 1 brochure.

Renova Nr. 1 Comfort with bathtub Comfort Plus.

The illuminated anti-glare mirror element enables users to see themselves easily whether sitting or standing and meets DIN 18040 standards for barrier-free bathrooms.

The grip zones on the underside of the wash basins make it easy for users to hold onto the wash basin and pull themselves up. Handles can be mounted on the sides of the furniture to ensure a safe grip or can be used as hand-towel rails.

The soft padded roll stool with additional storage space: stops as soon as weight is applied, is height-adjustable.

Renova Nr. 1 Comfort,
the comfortable way to
obtain personal freedom.

RENOVA NR. 1 COMFORT

Agilo

Agilo/Privo. Wheelchair-accessible individual solutions made from Varicor®.

Agilo

Two wheelchair-accessible wash basins made from high-quality Varicor® add another dimension to the washplace concept for barrier-free solutions from Keramag. Agilo with its angular design and Privo with its round design ensure that these items fit in with the overall look of the room. Both wash basins correspond to DIN 18040 standards for barrier-free bathrooms and sanitary facilities.

Privo

Particularly comfortable: spacious storage shelves and appealing easy-clean design without overflow hole.

Side cut-outs make it easier for users to hold their balance and pull themselves up safely or can be used as practical towel rails.

Privo

WELL -

BEING

IT IS THOSE MOMENTS OF COMPLETE RELAXATION AND CALM THAT ALLOW US TO BREATHE. SWITCH OFF. RELAX. DO SOMETHING GOOD FOR OURSELVES. THIS IS THE KIND OF COMFORT THAT WE YEARN FOR. PREFERABLY WITHIN THE PRIVATE SURROUNDINGS OF OUR OWN FOUR WALLS. HOW LOVELY THAT WE ALREADY HAVE THE PERFECT PLACE TO REVIVE THE SOUL: THE BATHROOM. A FEW WELL THOUGHT-OUT DETAILS IN BATHROOM DESIGN AND AN ETHOS OF WELL-BEING WILL TRANSFORM ANY BATHROOM INTO AN OASIS OF CALM. 

REVIVE YOUR SOUL AT HOME

Some people relax best when their body is immersed in lovely warm water and they can gradually shake off the stress of everyday life. Others love the revitalising effect of a refreshing shower. Whatever you prefer, with the right bathtub and shower tray, you can make sure you put in place the best conditions for your own perfect personal wellness experience.

The ideal bathtub shape shouldn't just suit your bathroom design. It should also suit you.

Whether you have a narrow or wider back, bathtubs from Keramag offer comfortable back widths of 590 to 820mm.

Lying, sitting or both? Depending on the slope at the back, incorporate both positions into one tub or lie down at either end.

For full baths where your knees do not jut out, Keramag offers bathtubs up to 550 mm deep.

Relaxation guaranteed: a couple of drops of camomile, lavender or vanilla essential oil, dissolved in a bit of cream or honey, will calm stressed nerves.

The perfect shower tray should suit your room, requirements and future planning.

Square, rectangular, hexagonal or corner shower tray – Keramag provides all kinds of tray shapes in various sizes and in designs that match the respective bathroom series – for shower spaces that are perfectly integrated into the bathroom and offer maximum space to move around in. Shower trays level with the floor to enable safe getting in and getting out can be installed for those thinking ahead to the future.

High-quality sanitary acrylic or velvety soft Varicor® – Keramag offers shower trays in both surfaces.

Power booster: Alternating between 5 seconds each of warm and cold water will wake you up and tighten the connective tissue. Or if you want a gentler shower: rub in sea salt and olive oil in a 2:1 ratio, let it soak in for a bit, wash it off and enjoy smoother skin and renewed vitality.

Comfort Plus

Comfort Plus/Comfort Plus Family. Bathtubs for every generation.

Lie down in comfort, easily pull yourself up, shower safely and more. With special comfort ideas for young and old alike and a design that fits harmoniously into any bathroom, the bathtubs Comfort Plus and Comfort Plus Family complement every bathroom design perfectly.

Comfort Plus

Small difference – big effect: the wider edge on the Comfort Plus Family bathtub not only makes getting in and out easier for grown ups and little ones, but the edge also makes a comfortable seat for parents and carers.

Provided on Comfort Plus Family as standard, available as an option on Comfort Plus:

Neck pillow to gently rest your head.

Seat for those who prefer to sit while showering. A tray for everything that makes bathing an even more pleasant experience.

Extra comfort starts here:

- ergonomically shaped, highly comfortable lying area
- armrests integrated on both sides
- handles for easy getting up
- sit comfortably or shower at the rear thanks to the flat cover cap

Comfort Plus Family, version right

Generell integriert:

Flat cover cap for comfortable standing and sitting at the rear of the bathtub.

COMFORT PLUS/
COMFORT PLUS FAMILY

Comfort Plus Family, version left

Comfort Plus und Comfort Plus Family – ideal for families with small children, multi-generational households and people with limited mobility, thanks to intelligently planned, sensible and helpful comfort extras.

Thanks to a spacious 1700 x 750/900 mm, flat cover cap and additional shelf, bathing as a couple is double the fun.

Comfortable and helpful: the edge of the bathtub can be extended on the right or left-hand side, offering plenty of sitting space.

Simply take your seat and shower in peace. The stable seat makes it easy and safe.

Comfort Plus Family, version right

Comfort Plus and Comfort Plus Family. Simply a few more good ideas to ensure comfort. For every generation.

BATHTUBS/SHOWER TRAYS

TECHNICAL DETAILS AT A GLANCE.

Is it special when you look at your new ceramic item and see a beautiful, smooth ceramic surface and there are no dark overflow holes or mounting screws? If cleaning your bathroom is quicker and more effortless? Or if drawers, cabinet doors and WC seats close completely silently and gently? We think so. This is why you will find a whole host of intelligently designed comfort ideas and innovative concepts at Keramag which complete your product decision perfectly. Find out which technical details you can expect from a bathroom series by reading the respective product overview.

Beautiful and hygienic – Clou, developed and patented by Keramag, makes overflow holes in washbasins and bidets superfluous, see page 36.

Beautiful and safe – a closed surface from the outside, but securely fixed to the wall from the inside. The **Kerafix** fixing system is a Keramag patent.

One turn is enough to make **Kerafix** grip securely from the inside and hold even urinals securely to the wall.

Quiet – WC seats with a **soft-closing mechanism** always close softly.

Automatically gentle – drawers with a **smooth self-closing mechanism** shut by themselves incredibly quietly.

Easy opening and closing – the high-quality **Tip-On mechanism** enables you to use drawers simply by applying light pressure with no need for handles.

30 YEARS
KERATECT®
GUARANTEE

Permanently easy to clean – ceramic with innovative **KeraTect® glaze** is incredibly smooth and prevents most bacteria and dirt from building up. Keramag also provides a 30 year KeraTect® guarantee (see page 35).

Easy-clean and hygienic – **Rimfree® wall-hung WCs** can be cleaned in an instant, including the inside.

Easy to clean – a couple of centimetres more **ground clearance** with wall-hung WCs and bidets makes mopping the floor much easier.

Easy to clean – the **covered floor fixings** for floor-standing WCs and bidets ensure closed external surfaces.

Beautiful aesthetics – nothing to see except a closed ceramic surface. The **covered wall fixings** even make covering plates superfluous.

Easy to install – thanks the mounting holes on the WC seats, wall-hung WCs can be mounted using the **PlugFix system** quickly and securely. In addition, fixings cannot be seen from the outside.

Easy to sit down – a **comfortable width** with an additional 45 mm and a wide seat surface offer people of every height a high level of sitting comfort.

Stand up more easily – when installed using standard connection dimensions, the **comfortable seat height ≥ 30 mm** enables effortless standing up from the WC.

Wall-hung WCs also offer a **comfortable seat height ≥ 30 mm** when mounted using standard connection dimensions.

Saves costs and resources – the **4.5 l flush technology** for WCs helps to considerably reduce water consumption in the bathroom (see page 10).

Water saving – with every 'short flush', you can save water and costs, and also protect the environment. The **dual flush button** on the cistern makes it easy.
